

# Webinar Series

## *Life Cycle Assessment (LCA) in agricultural & food products*

### Online training

Dates: 12, 14, 22 & 28 June 2017

Location: *online*

- *Are you new in Life Cycle Assessments (LCA)?*
- *Are you interested in the balance between environmental impact and nutritional value of food?*
- *Do you want to increase your skills in life cycle assessments and the understanding of sustainable diets?*
- *Or are you engaged in complex environmental analyses of agricultural and food products?*

#### Join our live webinar series!

Update your knowledge easily and fast with our webinar series! Readily from your computer or tablet at home or from your office. No travel time, you have the opportunity to revisit the webinars and have access to all course materials online at any time.

---

#### 4 educational sessions

In 4 sessions, of approximately 1.5 hours, our LCA experts will take you step by step through the LCA landscape, from theory towards methodological standards and recent developments in the work field. Of course there is plenty of room for discussions and questions, during Q&A sessions. The webinar series also includes an interesting individual assignment, which will help you to gain a deep understanding of the daily practice of LCA.

#### Focus of the webinar series

In 4 sessions you will learn about:

- **Session 1: Landscape of food LCAs**  
**Monday 12<sup>th</sup> of June (start 10:00 AM, CET)**  
We will start with an interactive quiz. Then we will take you through the recent history of food LCAs, existing guidelines and standards. We will wrap up with demonstrating what makes LCAs of agricultural products relatively complex.
- **Session 2: Principles of LCA methodology**  
**Wednesday 14<sup>th</sup> of June (start 10:00 AM, CET)**  
Step by step we will take you through an LCA, using enlightening examples on the crucial decisions that need to be taken when performing an LCA.

*After session 2 you will get an individual assignment. You will need approximately 4 hours to complete this assignment in between sessions 2 and 3.*

- **Session 3: Discussing the assignment: *Environmental performance of milk***  
**Thursday 22<sup>nd</sup> of June (start 10:00 AM, CET)**

You will have the chance to ask questions while we walk you through the assignment.

*After session 3 you will receive an article to read. It is your task to interpret the results and comment on the decisions taken by the authors.*

- **Session 4: Interpretation of LCA results**  
**Wednesday 28<sup>th</sup> of June (start 10:00 AM, CET)**

We will demonstrate how correct interpretation of the results will improve the quality and robustness of the LCA, using the article you have read.

- **Individual follow-up session**

included in the complete course: 1 hour of individual coaching by one of our experts.

*The course and course materials will be in English. You will not need LCA software for the assignment.*

#### Meet the trainers

**Roline Broekema**  
Senior consultant

**Elena Koukouna**  
Consultant

#### What is included?

- 4 interactive online sessions of 1.5 hours;
- Online access to all webinars, presentations, hand-outs, Excel templates & assignments;
- If you book the complete course you will receive 1 hour of individual follow-up coaching by one of our experts;
